

Love Field was named for Lt. Moss Lee Love, who was an early Army Aviator and was killed on a training flight at Rockwell Field (now North Island Naval Air Station) near San Diego, California in 1913. Love was from a prominent Fairfax, Virginia family and had no known connections to Dallas but as the Army began expanding flight training operations during World War I, new flying fields were named for fallen aviators and his name was next on the list. *(Photo and Narrative is from Frontiers of Flight Museum Archives)*

Construction Updates

Taxiway D between Taxiway C and Taxiway D1 was closed May 2013 as work continues for the next phase of the Love Field Modernization Project (LFMP).

This phase of the project is expected to be completed in 2014 and it includes the demolition of Gates 4 through 15 of the west concourse and the baggage claim wing.

Construction on Taxiway C continues and requires a lengthy portion to be closed along runway 13R/31L (Denton). This closure primarily affects arrivals in the south flow air traffic direction as it hinders arrivals on 13R/31L. Construction will continue through the first week of March 2015. Please see the airport diagram on page 3 for more information.
